Miss Mavis Hamilton has one daughter, Jane, who is now in Washington, D.C. She spent three months of the summer vacation with her family in Paducah.

Miss Hortense Key left last week for Tampa, Fla., where she will be engaged in teaching.

Mr. and Mrs. Warren Holt have returned to Memphis by motor, following a week's visit with his mother, Mrs. Joe Falloway.

Mr. Claude Morton, who moved from Calloway two years ago and located in Oklahoma, visited his family here last week.

Mr. and Mrs. Harry S. Schrodner's family high school football season will go up to the hardest schedule of the school.

A pie supper will be given at the school, Saturday, Sept. 24. The proceeds will be for the benefit of school, and light refreshments will be served.

Messrs. Ed Fibeck and Karl Frazee attended the district Rotary meeting in session in Bowling Green, last week.

Mr. Paul Miller and cousin, Mrs. Lottie Doron Miller, left Saturday for Miami, Fla., where they will teach.

Boyd Wear and family, and C. M. Hood motored to Centralia, Ill., Friday, for a few days' visit with Mr. Hood's daughter.

Conducting a tent meeting at Kansas, has been pastor of the Liberty Baptist church for nine years, coming to this county from Murray. He will probably return to Murray at the close of his ministry at Palsomdale. His successor has not been called. —Mayfield Messenger.

The many friends of Dr. B. B. Keys are delighted to learn that he is rapidly recovering from an operation for appendicitis, performed last week at the I. C. hospital, Paducah.

Mr. E. G. Neale, of the County Clerk's office, has been appointed Chairman of the Democratic Campaign Committee for the coming November election. The Times predicts a big Democratic majority in Calloway.

MRS. TOM GARLAND BURIED TO-DAY

The body of Mrs. Effie Bourland Garland, accompanied by the husband, Mr. Tom Garland and daughter, Mrs. Bernice Moore and Mr. Moore, arrived here on the 1:20 Monday afternoon from Jackson, Miss., and was taken to the home of her brother, Mr. Edwin Bourland, W. Maple St., where it lay in state until Wednesday morning.

It has been her privilege to enjoy a wonderful trip every year for the past five years. Last year her itinerary included New York City, Philadelphia, Niagara Falls, and Yellow Stone Park.

Mr. and Mrs. Utterback with Mary Katherine and Will Hays, are just home from a visit to Carlsbad Cavern, New Mexico, the largest and most spectacular cave in the world. Twenty one miles have been explored, but only three and one half miles are yet open to the public. The cave was visited by 250 in August.

The cave is 150 feet underground, reached by a flight of 600 steps; the big room, as it is called, is 650 feet wide. There are a number of other rooms, the beauty of which surpasses description. It is said that the lower cave, yet not open to the public, is even more beautiful.

(This bit of cave information was given to a Murray friend in a personal letter, but we have assumed the privilege of passing it on to others.)

First Christian Church Bible School each Lord's day—9:30. Communion—11:00. Followed by sermon. Evening service 7:30. Prayer service Wednesday evening, 7:30.

All services will be held at the Opera House until the repair work is completed at the church.

Mrs. Laura Clouton left Thursday for a two weeks' visit with relatives in Marmaduke, Ark., and New Madrid, Mo.

The latest in fall and winter coats and dresses.—Mrs. Dell Finney.

Sons Act As Mother's Pallbearers

Funeral services for Mrs. N. E. Wallis, 69 years of age, were held at 3 o'clock Friday at Lebanon, one mile west of Sedalia, with the Rev. E. J. Barnett, pastor of the First Christian church of Mayfield, in charge. Burial followed in the church graveyard.

The pallbearers were her five sons and one son-in-law. The son-in-law is Ed West of east of the city.

These brethren are men of ability, experience and consecration and will lead us in a great meeting.

Former Murray Girl Vacationing in Havana

The Amarillo, Texas, Daily News has the following reference to Miss Reba Utterback, daughter of Mr. and Mrs. Wiley Utterback, former residents of Murray:

Misses Reba, Utterback and Hazel Bridgeman of the Santa Fe general offices, left Thursday for Galveston, where they will sail for Cuba and return to points in Florida where they will spend their vacation.

Miss Utterback is the private secretary to the auditor of the Santa Fe general offices, and Murray friends are pleased to learn of her exceptionally good record.

It has been her privilege to enjoy a wonderful trip every year for the past five years. Last year her itinerary included New York City, Philadelphia, Niagara Falls, and Yellow Stone Park.

CITY SCHOOLS OPENED MONDAY, SEPT. 12

The city school and the training school launched out on another promising year with the opening of the fall semester Monday morning. The call to "books" follows we trust, a happily and profitably spent vacation. The interest manifested by an efficient faculty and responsive student body indicates a successful and pleasant year ahead. There were 793 students enrolled in the city school and the grades; 195 in the training school, which will be conducted in the Administration building until the new Training School building is completed.

Many visitors attended the chapel exercises and opening program held in the auditorium of the high school. After the devotional led by Rev. R. M. Walker, pastor of the local Methodist church, Mr. Rainey T. Wells, president of the Murray State Normal and Teachers College, delivered an inspirational address, following which city superintendent, W. J. Caplinger, presented the faculty to the large assemblage.

The colored school also opened Monday with an enrollment of 132, bringing the total for the city, to date, to 836. This number will probably be greatly augmented by next Monday.

Club Meeting Mrs. Ed Farmer and Mrs. Fred James will be hosts to the Home Dept. of the Woman's Club, Thursday afternoon, Sept. 22, 2:30 o'clock, at the Farmer home, W. Main St.

Following is the program: Roll call. Song, Bless Be the Tie—Club. Address—Chairman. The Purpose and Force of the Federated Club—Mrs. W. H. Mason.

Our Definite Purpose as a Club—Mrs. Charles Hise. Round Table Discussion. Objectives of Our Club, 1927-28—Mrs. W. R. Bourne.

THE TRAIL BEHIND YOU

You have often heard it said—"It's the little things that count," and have agreed in listless fashion with the philosophy, without realizing the importance of it. When your life is spent and nearly done, when you ruminate on the trail behind you, you won't pay much mind to the larger things you have accomplished, but the little deeds and little things will crowd your memory.

So it is on a touring trip, you first tell of the big places and important things you have seen, but those which you will longer remember and cherish, seemed wholly unimportant at the time. It is not the big hotel, but the rustic inn that will last in your memory.

And so it is with others, when you are gone, they will not long recall the things that history places to your credit or discredit, but will remember you happily or unhappily according to the little things you have done to

them and their friends. A youth starting out on life's journey cannot be too careful of unimportant things; life may hand you a jolt and the things that you considered of no importance at all, may suddenly loom forth as really big things, which will mightily affect your happiness. It is impossible not to err, everyone does, but keep the balance always far to the right, so that allowance can be made when you slip.

Keep the trail behind you out of the mud so far as possible; there must needs of course be rainy days when this will be out of the question, but ever strive to keep your trail clean, and so filled with kindly little deeds, that your few mistakes will be smothered in the reckoning.—Princeton Leader.

SOMETHING TO THINK OVER

Whether it be writing an international treaty, or a stirring story, arranging a trade agreement, or a dinner table, plowing a big field or placing a little bowl of flowers, the man or woman who has done well, who has done something deftly, has won the right to enjoy a word of appreciation. And words of appreciation have a happy quality of working both ways; they brighten the world alike for those who hear them and those who speak them.—Ex.

One hundred and seventy acres of land on two islands in the North Platte River, Nebraska, are being offered for homesteads by Uncle Sam—the principal product being cotton wood trees. Here's an opportunity for some New York boy to go west and get into the cotton business.

Chauncey M. Depew has the first \$100 he ever earned—and it has grown to be \$1,100, earning \$1,000 for him in 66 years deposited in a saving account. Almost enough to buy a ring side seat in the 113th row at the Dempsey-Tunney fight. It pays to be thrifty.

What Young America Likes

WHAT are the musical preferences of young America? According to their own statements, 1,746 high school boys and girls of Denver, Colorado, know exactly the sort of music they like best and were not slow to make their preferences known to J. G. Kunda, director of music in the Denver public schools. Orchestra music was selected by 27 per cent of those as affording the greatest pleasure, while youthful thumbs turned up for band music to the tune of 20 per cent.

To an equal number of students, music spells dance music, either direct, "canned" or via radio. While this is usually orchestra music under another name, their choice gives some idea of the type of composition which this fifth prefers.

Instrumental music, either as solos or trios, as differentiated from large bands and orchestras, received 19 per cent or almost another fifth in the musical balloting, while vocal music makes the least appeal and was the selection of the remaining 14 per cent.

Two other interesting sidelights on this situation are pointed out by the Com Music Center. One is that of these 1,746 students, 623 are studying music under private instructors and 220 expect to make music their life work.

Prefer Music to Shovel

WORKING one's way through college has always challenged the ingenuity and resourcefulness of the American student. Playing poker with invalids, giving one's blood for transfusion and trick flying are a few of the novel methods that have been used. Most means, however, are far less spectacular and diverting. Shoveling snow, stoking the furnace and mowing the lawn in return for room claims the spare time of most self-supporting students. "Singing hash," selling over the counter and from door to door and doing clerical work are other well-worn routes to a degree.

Cushing in on musical talent and ability to play an instrument is another path that is attracting more and more students, both men and women, every year. That it is pleasant, profitable, dignified and leads to worthwhile personal contacts, are some of the reasons a musical career is so popular.

Violin Suits Co-Eds' Moods

THE co-ed knows her own mind and it is not slow to make her preferences known. When she joins the college band or orchestra—and a survey just completed by the Com Music Center involving 130,435 college and university students shows that one-fifth of band and orchestra players were women—she knows what instrument she prefers for getting musical training, gaining prestige in college or helping to pay her school expenses.

Frequent Bilious Attacks
"I suffered with severe bilious attacks which came on me two or three times every month," says Mr. Ollie Miller, of Murray, Ky. "I would become dizzy. My head would ache terribly, feeling as if it would almost burst. I felt exactly like a tight band was being drawn closer and closer around my temples. "My stomach would be so upset I could not retain any kind of nourishment for hours. I would have to quit work and go to bed. "My color was awful. I was yellow and my skin was drawn and dry. I did not have any energy—no ambition to work. I was just about half sick most of the time because of these spells. "One day one of my neighbors, who has used Theodor's Black-Draught for years, said he had noticed how bad my color was and thought it would help me. "I got some Black-Draught immediately and began to take it regularly until I got my system clear of the poison I had been absorbing. I soon began to feel better and developed a fine appetite. I had no more bad headaches or bilious attacks."

Noted "Cat" Bandit Is From Mayfield

Will Ed (Bud) Baker, 27, who
according to press dispatches is
held in Chicago as the confessed
"cat" bandit, was born in May-
field and lived here and in Hick-
ory until he was about thirteen
years of age.

Then he disappeared and some-
say he went to the army. He
was located about two years ago
in a Chicago cafe by Clay Lem-
on, former editor of The May-
field Messenger, who is now as-
sociated with the Chicago Trib-
une.

It is said that he had taken on
the name of William Mitchell
and was married.

His father, Clip B. Baker, for-
mer restaurant owner of May-
field, has been making his home
in Cleveland, Ohio, about three
years, and was in Mayfield this
week on a visit.

Baker attended school here

Mule-O-Grams

Volume 1 Sept. 14, 1927 Number 4

"Making a good home better"
is a good slogan for our readers
to keep in mind. Added room
and greater comfort often can
be provided with a very small
expenditure of money. There
are dozens of ways in which im-
provements can be made that
will make homes more delight-
ful. We'll be glad to talk over
these problems with you at any
time, even if you don't buy.

MULEHIDE roofs make beauti-
ful homes!
Now is the time to repair and
rebuild.

For the benefit of the ladies—
when driving a nail in hard
wood, first dip the point of the
nail in lard.

If you want a double wear roof
say these two words, when you
buy, "MULE HIDE."

FALL

All the ingenuity of the most famous stylists are manifested in our new Fall Hats. Every model is characterized by those details of finishing and trimming that mark it as distinguished—utterly new and unsurpassingly smart. Fashioned of fine felts and soft velours, in a host of lovely colors and styles. The larger felts have softly rippling brims, and the smaller models have brims that are flatteringly crisp. A few have double brims, in two-toned colors. All are smartly tailored, after the manner of the mode, with simple trimmings of grosgrain ribbon, buckles, and rhinestone pins.

An advance showing of women's and misses' winter coats that accurately forecast a most pleasing new mode for the coming season. While the lines are fundamentally boyish in a slim, becoming manner, every model is embellished with delightfully feminine touches, that greatly add to their obvious charm. A wide selection as to style, materials, and colors, in the newest version of popular favorites. Price, and quality, of course, are typical of Hale & Son's reputation for fine values.

STYLISH FROCKS—Here is a snap we picked up while in the market. A manufacturer of the better kind of popular priced dresses, had a grouping of this seasons newest dresses, usually retailing at \$16.75 up to \$19.75, and we were able to buy these at a very special price, that will enable us to sell the entire lot at a very low price. These dresses come in the very newest materials, and colors; and they are made up in approved styles for the fall season. Our price is only

\$12.75
For any Dress in the lot.

DRESSES of exceptional charm and beauty are now being shown in our Ready-to-Wear department. This store, always known for its style leadership was never better prepared to serve you with Fall 1927 approved frocks, all made of the seasons approved materials, and they come in the popular black, navy and the soft shades of tan, beautiful shades of green, and the most bewitching shades of red that your eyes have beheld. Prices are 49.75. A most popular

Electric Power Circuit Soon to Be Ready

Paris, Tenn., Sept. 10—Construction of a high tension line from Mayfield to Murray having just been authorized by the Kentucky-Tennessee Light & Power Company, the material has been ordered, and it is expected to have the line completed before the first of the year.

This will give Paris two electric services available, says W. J. Holman, district superintendent, of this city. Should the line go down south of Paris, the board can be cut in on the line north of Paris, and vice versa. In other words a complete loop will be effected with the building of the line from Murray to Mayfield. Paris now gets its light and power from Mayfield, via Fulton and Martin. From Paris the line goes on north to supply Whitlock, Puryear, Hazel and Murray. When the local

power plant was at first discontinued in favor of the high line, the power was supplied from the Martin distributing station. Recently the Mayfield station took the line over, saving a coal haul from the mines to Martin, a greater distance than to Mayfield.

To Whom It May Concern

We have been feeding our milk cows and hogs on Murphy's Mineral Feed for the last three months and like it fine. All craving for old bones and leather have disappeared from our cattle; milk flow keeps good and pigs fatten nicely. We think it well worth the price. We wish to congratulate the Murphy Mineral Company for having secured services of such a man as Dr. H. H. Boggess as he thoroughly understands his business.
